

Industrial Gear Oils

- US Steel 224 is the standard
 - o Designed to provide Extreme Pressure (EP) protection for the gears
- Viscosity grades are based on the ISO or AGMA system.
 - o For example EP 460, EP 6A
- Viscosity Grades typically used are:

ISO	68	100	150	220	320	460
AGMA	2	3	4	5	6	6A

10, 15, 22, 32, 46, 68, 100, 150, 220, 320, 460, 680, 1000
